Ms. Buchanan updated the Board that Vesta is requesting modifications to their prior form of agreement to do two things. The first is for the District to indemnify Vesta for the District's negligence and the second is for matching termination dates. The termination dates were being requested to be 60 days rather than 30. She noted that since the CDD is a public entity, the insurer does not provide indemnification to a private party so to the extent that the District does something that is negligent and Vesta requested indemnification for a claim relating to the District's negligence it will be a budget expense as compared to a covered insurance expense. Ms. Buchanan provided the Board with some examples of this. Mr. Fagan shared that these terms are consistent with a lot of the new contracts they are writing or rewriting. Ms. Buchanan stressed that this is actually a Board by Board decision and that the Board would need to approve taking on the additional liability, this was not something her office or Rizzetta could move forward with without Board approval. Further discussion ensued regarding the mutual indemnification request and the CDD opening itself up unnecessarily to additional liability. The Board accepted the matching termination dates request but not the mutual indemnification request. Mr. Fagen noted that he would take this information back to their Counsel.

1. Update on Speed Limit Signage

Mr. Guilbeault was not on the phone line at this time so Ms. Gallagher updated the Board that he had provided an estimate for standard signs at \$400.00 per sign to include labor and material. Potential locations were discussed. The Board authorized Mr. Sharp to work with staff to review locations and they would then ratify the final proposal at the next meeting.

86 C. Amenity Manager/Field Operations Manager
87 Mr. Insel and Mr. Anderson reviewed their reports found under tab 3 of the agenda.
88 Mr. Insel noted that the new Vesta Amenity Center website was up and running and
89 it was expected to be beneficial for the community.
90

91 2. Charles Aquatics Report

92 i. Consideration of Charles Aquatics Proposal for Pond
93 13 Treatment

94 Mr. Anderson updated the Board that this proposal had been
95 received in response to concerns shared regarding the condition of
96 pond #13 on the pond maintenance map. Ms. Gallagher added that
97 this treatment was for water milfoil and it had been relayed that this
98 was a difficult and expensive form of vegetation to treat. Treatments
99 could range from \$900.00 to \$4,800.00 according to Charles Aquatics
100 and they are proposing to begin with the least expensive treatment
101 option. The Chairman requested that Charles Aquatics cover this
102 treatment as water milfoil was not even noted as a concern on their
103 pond report and should they not work with the district to resolve these
104 concerns under the contracted amount directed staff to obtain
105 proposals for aquatics maintenance from other vendors for the Board
106 to review.
107

108 D. Landscape Report

109 Mr. Peters noted that there were six trees along Big Oak Drive that are continuing
110 to struggle. They fertilized three and topped out three to see if either would have a
111 positive impact, but he has not seen a substantial difference with either approach.
112 He noted that they would treat with another round of fertilizer to see if this helps. He
113 also noted that the annuals at the entry would be changed out this week. Ms.
114 Gallagher inquired about the seeding and straw that the Board had approved in
115 August for the common area between the first two roundabouts. Mr. Peters stated
116 that this had been completed, but that it had not shown improvement so the CDD
117 was not billed for this work.
118

119 *Mr. Guilbeault from ETM joined the meeting by phone.*

120
121 *The Board moved to agenda item 5A - Consideration of GreenPoint Enhancement Proposals*

122
123 **SIXTH ORDER OF BUSINESS**

124 **Consideration of GreenPoint Enhancement
125 Proposals**

126 The Board reviewed two proposals from Greenpoint. First proposal was to remove roses and
127 provided two options for new plant material. Option 1 included ginger and hawaiian and option 2
128 included lirioppe and crotons. The second proposal was to remove existing sod through a section
129 at the amenity center and install 15 pallets of St. Augustine Floratam to make the turf at the
130 amenity center consistent.
131

On a motion by Mr. Teagle, seconded by Mr. Ricci, with all in favor, the Board approved the GreenPoint Proposals Option # Two to replace the roses in the amount of \$750.00, and the Amenity Center sod replacement in the amount of \$4,000.00, for Cross Creek North Community Development District.

132
133 *The Board moved back to agenda item 4E – District Manager*

134
135 **SEVENTH ORDER OF BUSINESS** **District Manager**

136
137 Ms. Gallagher updated the Board that two irrigation meters were recently added to the CDD
138 account as authorized by the Chairman. She shared an email that she had received from a
139 resident with the Board requesting a “No Outlet” sign be posted at Tidal Creek and Evening Oaks.
140 (exhibit A) The Board authorized this sign to be included when working on the speed limit signs.

141
142 She also noted that two requests had come in from the HOA following their meeting regarding
143 lighting at the second entry and additional wildlife warning signs on ponds. It was noted that the
144 County would be improving the area along the county road at the second entry but the Board
145 authorized staff to work on landscape lighting proposals for the monument sign at the second
146 entry as well as additional wildlife signs and to work with the Chairman between meetings on
147 these items.

148
149 In addition, the Florida Department of Commerce invoices for the annual fee were being
150 processed in advance of the December 1st deadline and the Records Management Compliance
151 Statements were being completed prior to the December 31st deadline.

152
153 The Board also provided direction for staff to obtain proposals for a reserve study.

154
155 1. September 2023 Financials

156 It had previously been requested that the end of the fiscal year financials be
157 included in an agenda once available. Ms. Gallagher noted that the September
158 2023 financials reflected the District ending the fiscal year under budget.

159
160 **EIGHTH ORDER OF BUSINESS** **Ratification of Unit 1A ROW Conveyance**

161
162 The Chairman reviewed agenda items:

- 163 - 5B - Ratification of Unit 1A ROW Conveyance
164 - 5C - Ratification of the District’s Fiscal Year 2023/2024 Insurance Policy Renewal
165 - 5E – Ratification of Approval of Revised Request for Easement Variance
166

On a motion by Mr. Teagle, seconded by Mr. Ricci, with all in favor, the Board ratified Unit 1A ROW Conveyance, the District’s Fiscal Year 2023/2024 Insurance Policy Renewal, and Approval of Revised Request for Easement Variance for Cross Creek North Community Development District.

Pool Tile Repair

Mr. Anderson reviewed an updated proposal (exhibit B) for pool tile and coping repairs from Oak Wells in the amount of \$2,993.16. The proposal had been revised to include a description of the tile repairs. It was noted that a proposal from Oak Wells for tile, joint, eyeball and flipper repairs had previously been approved in the amount of \$3,305.00. Oak Wells invoiced for the repairs excluding the tile in the amount of \$3,120.00. The tile repairs have become more involved since the original proposal was approved and due to this, the new proposal was required.

On a motion by Mr. Teagle, seconded by Mr. Ricci, with all in favor, the Board accepted the Oak Wells Proposal in the amount of \$2,993.16, for the Cross Creek North Community Development District.

THIRTEENTH ORDER OF BUSINESS

**Consideration of Cross Creek North CDD
RV/Boat Storage Policies**

Ms. Buchanan reviewed the draft policies for the RV/Boat storage facility.

As audience members had joined the meeting since the onset, comments were heard from the audience regarding the draft policies. Discussion ensued regarding the term lining up with the fiscal year and the ability to prorate the fee the first year when the facility opens or prorate refunds if a space was vacated with the required notice during the term of the agreement, the agreement and fee being for an annual period and not monthly, no commercial vehicles or food trucks being permitted, adding that trash must be removed from the facility, removing that wood blocks may be acquired at the amenity office, clarifying the measurements for the space are general language for the total length of the space and not for the Boat/RV itself. It was also noted that during the first year, the facility should only be open to residents and it can be reviewed after the first year as to whether non-residents will be permitted to reserve spaces.

On a motion by Mr. Teagle, seconded by Mr. Ricci, with all in favor, the Board adopted the RV/Boat Storage Policies as modified, for the Cross Creek North Community Development District.

FOURTEENTH ORDER OF BUSINESS

**Consideration of Cross Creek North CDD
RV/Boat Storage License Agreement**

On a motion by Mr. Teagle, seconded by Mr. Ricci, with all in favor, the Board approved the Cross Creek North CDD RV/Boat Storage License Agreement with the term beginning October 1 annually, for the Cross Creek North Community Development District.

The Board reviewed an email from a resident that was unable to attend the meeting today regarding gym expansion and court repairs as well as turning lane into the back entrance. (exhibit C). It was noted that there is additional fitness equipment being installed in the expanded amenity facility, no confirmed opening date was provided. The County is handling improvements at the Russell Road entrance.

Additional comments were heard on elections and basketball. It was noted that basketball was not budgeted for this fiscal year and interested residents were encouraged to attend the proposed budget meeting in May if they would like the Board to consider including this for the fiscal year 2024/2025 budget.

Contractor is not responsible for delay or failure to perform work when due to acts of God, weather, strike, war, government prohibition, holidays, delivery and shipping schedule of contractor's suppliers, or reasons beyond his control. Delays caused by Owner/Contractor or other trades, delays in payments, and/or changes made after commencement of construction will increase estimated construction period and Contractor will not be responsible for meeting estimated time schedules.

To avoid unnecessary delay during excavation, Owner/Contractor agrees that Contractor may perform up to \$1000.00 in additional work required by abnormal conditions without prior notice to or written authorization by Owner/Contractor. Contractor will not be held liable for floatation of shell if such should occur because of conditions beyond our control. Any loss resulting from delay in construction caused by the Owner through obstruction or desire for change shall be paid by the Owner. Contractor retains title to new pool equipment until purchase price and any extras are paid in full. If contract price is not paid in accordance with this contract, Contractor or its employees may without notice enter the Owner's premises and repossess any pool equipment and accessories included in this contract and will apply the reasonable value of said equipment and accessories as determined by the Contractor, against any unpaid balance due. Owner shall have no interest in construction equipment brought to the job. A reasonable charge will be made to re-install any equipment removed under this agreement. The interior finish application will not be scheduled until all outstanding invoices, including change orders, are paid in full.
10. **Warranty:** When final stage completion invoice is rendered, Owner will fill out and sign 'Acceptance and Warranty Certificate' - Exhibit "C". 13. **Completion:** Completion is specifically identified as: It is understood and agreed by the parties that completion of swimming pool shall be and take place at the time that the swimming pool is put in operation. Any and all outstanding invoices are due at this time. Use of the pool by Owner constitutes acceptance whether or not 'Acceptance and Warranty Certificate' has been assigned and/or punch out items complete.
14. **Miscellaneous:** Owner/Contractor grants Contractor permission to photograph work at Contractor's discretion, and grants right to use photographs for any purposes whatsoever the Contractor may deem fit, unless otherwise noted in writing.
15. **Building Materials Price Escalation and Supply Chain Delays:** If, during the performance of the Work, the price of building material significantly increases, through no fault of the Contractor, the price shall be equitably adjusted by an amount reasonably necessary to cover the actual price increases, without any markup for profit or overhead. As used herein, a significant price increase shall mean an increase of 5% or more in the price of any building materials from the date of the Contract signing. Such price increases shall be documented through quotes, invoices, or receipts. Where the delivery of material is delayed, through no fault of the Contractor, as a result of the shortage or unavailability of building materials and/or supply chain issues, the Contract price and/or time shall be equitably adjusted for the actual additional costs and/or time associated with such delay(s).
16. **Concealed or Unknown Conditions.** If the Contractor encounters conditions at the site that are (1) subsurface or otherwise concealed physical conditions that differ materially from those indicated in the information provided by the Owner to Contractor or (2) unknown physical conditions of an unusual nature, that differ materially from those ordinarily found to exist and generally recognized as inherent in construction activities, the Contractor shall promptly provide notice to the Owner the Contract price and time shall be equitably adjusted to account for the additional costs and/or time.
17. **Hazardous Materials:** Owner is responsible for any preexisting hazardous materials on site. If the Contractor encounters a hazardous material or substance, including but not limited to asbestos or polychlorinated biphenyl (PCB), Contractor shall, upon recognizing the condition, immediately stop work in the affected area and report the condition to the Owner. Owner shall then pay to have such hazardous materials removed or rendered harmless. When the material or substance has been rendered harmless, work in the affected area shall resume upon written agreement of the Owner and Contractor. By Change Order, the Contract time shall be extended appropriately and the Contract sum shall be increased in the amount of the Contractor's reasonable additional costs of shut-down, delay and start-up. To the fullest extent permitted by law, the Owner shall indemnify and hold harmless the Contractor and its agents and employees of any of them from and against claims, damages, losses and expenses, including but not limited to attorneys' fees, arising out of or resulting from performance of the Work in the areas affected by the hazardous materials, provided that such claim, damage, loss or expense is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the Work itself), except to the extent that such damage, loss or expense is due to the fault or negligence of the party seeking indemnity.

Hi,

I have a couple of questions since I'm not sure if I can make it to the meeting tomorrow at 3:00.

I wanted to find out when the pickle ball courts are supposed to be completed. I was told that the original ones would be resurfaced when the other two new ones were surfaced. There are so many cracks in the ones now that when we went down to play on them the ball hits the cracks and doesn't bounce correctly when that happens.

I wanted to find out the same with the new gym and hopefully more equipment since it gets crowded in there in the afternoons with this many people in this subdivision now.

And lastly, I wanted to see if anyone can talk to the road department about adding a turning lane at the second entrance when we are turning left to get in the entrance. I have been passed on that road because of slowing down to turn left. That is a place that is waiting for a bad accident to happen. It happens very often to me and others that turn left from Russell Rd to the entrance.

I appreciate any information you can give me regarding these concerns. I will try to get to the meeting if possible.

Thanks,
June Noriega

Managers Report

Date of meeting: **1.9.24**

Submitted by: **Mark Insel**

POOL AND FACILITY:

- We have moved into the new office. The desks, chairs and equipment have been assembled. We do not have internet at time of this report. We will have Comcast install another access point for Wi-Fi to reach the new gym, pool and office. This was the recommendation from our IT Tech and Comcast. They will upgrade our service and will add an access point for only a small additional fee per month.
- Prep for access to new areas are happening at this time as well. Working with the on-site contractor to punch out items needing attention. (painting, cleaning, repairs that have been noticed by staff needing attention)
- The Vesta Website has been a huge success and is beneficial for residents to be able reach out quickly and easily.
- Vesta staff has been keeping up on many cleaning items onsite, stains on exterior have been cleaned.
- We have had a constant flow of new residents requesting access cards. We have several residents coming into the office every day.
- New Pressure washer has been a huge help. Facility, playground, entrance monuments, and ceiling areas were pressure washed and will be an ongoing task.
- Elite towing agreement has been signed and tow away signs have been installed.
- The pool activity has ceased due to cooler water temps.
- Safety checks on the Playground, Volleyball Court, and Property are completed daily.
- QR Codes are placed in the Bulletin Board and Playground, which residents have been using to survey each area. There is one for the website as well!
- Workers are on site often doing work on the pool, RV lot, and new buildings.
- Touch-up painting has been done around the building where needed.
- Monthly Food Trucks have had success and will continue.
- Holiday lighting has been a hit, the residents love the new entrance.

GYM AND EQUIPMENT:

- All equipment has been checked; PM was completed last month. The janitorial crew has been cleaning the fitness center when onsite as well.
- The machines are in great shape and all working properly!
- By the meeting time the gym should have been moved into new center. We will need floor mats for the dumbbells and probably the weight benches. Estimate for new Wipe container/trash cans being presented.

COMPLETED PROJECTS / No Board action required:

- Irrigation issues were handled in front of the building and new facility.
- There have been many residents who have given us positive feedback regarding the overall appearance of the Facility. They love seeing staff on-site more often.
- Routine maintenance and janitorial continue throughout the facility.
- We continue to ride the community monitoring signs, drains, road conditions, etc. David is finding a lot of trash, perhaps due to construction sites.
- We had some more street signs replaced/repared.
- The towing signs have been placed around the property.
- The new Reader board has been installed.

POND AND LAKE MANAGEMENT:

- The technician has been onsite monthly (12.18). His report had no major issues and treatments were focused basically on shoreline growth. They fill us in on which have algae, grass and weed issues, low water levels, and the ponds seeing the most trash. Our Tech is very attentive and always doing a great job. Management from the office has been difficult to obtain information.
- Low water levels have been reported on some ponds. Some of the heavy rains a couple weeks ago should have helped.
- Will always inquire about the need for carp or tilapia if suggested for the future and requirements.

LANDSCAPE MANAGEMENT:

- New sod has been installed in front of building.
- New flowers have been placed at Water wheel entrance.
- The roses have been removed at the facility and new plants have been installed along with new mulch.
- Hedge and bush trimming around the facility have been completed every other week.
- Weeded the beds at entrances and facility.
- David communicates many times a week with crew leaders, and they work together to handle any community needs. They have been more attentive to his requests!
- The Landscaping Management Tool, and weekly drive checklist are in place for reporting. Greenpoint's tasks are being completed daily. The crews are working on the Winter schedule. Picking up more trash around ponds. They are prioritizing work throughout the community and are keeping things maintained. The last report reflected rotations completed, blowing the property, and picking up trash. They mowed and line-trimmed all the lakes. Will be requesting all Fertilization schedules and Fert tags.

WHAT TO EXPECT IN THE UPCOMING MONTHS:

- Vesta will be working closely with the contractors to get everything opened and looking great.
- Request for metal benches at certain park locations was brought up. We have the estimate and will determine locations and amount after further discussions in the future possibly.
- Will continue sending Policy Highlight reminders and updates.
- Informal meet and greet Q&A sessions with residents depending on turnout will be quarterly. Or as needed.
- Continued diligence on a clean facility, pool, and grounds.
- Continued oversight on landscaping and irrigation.
- Continuing to knock out items on punch list of projects both small and large on existing and new property, not needing Board approval.

Cross Creek Landscape Quality Audit

Over the last quarter we have been on a weekly basis maintenance schedule of providing around 200+ man hours a week. Staff has been applying pre emergent chemicals and Glyphosate chemicals to the mulch beds and around the trees in the grass areas to curb weed pressure during the winter months this will help with the upcoming new growth if we get warmer weather. We have had several irrigation issues throughout the community over the last quarter that has been repaired which have included re installation of new irrigation line to the primary entrance beds due to damage “no fault of community or greenpoint , just wear on the actual lines. We had staff run all new drip lines around the water feature to ensure plant materials are getting proper water coverage. We will continue on the approved maintenance schedule going into the winter months including maintaining the lakes and common areas per the approved contract. We have completed the approved estimates # 1022 for the removal of invasive grass and grading including installation of 15 pallets of Floritam Sod at the amenity center for a full St Augustine sodded area. We also completed the approved estimate #1017 to remove the roses and replace with the 2nd option provided. We installed the approved plants along with 30 additional plants at no cost to the community that seemed to need replaced as they didn't meet the overall theme of the planting bed that was reworked. We will continue to work around the weather if the need arises. We re-installed several trees that were blown down after the storm that hit the area in several locations. We are hoping these trees that were re installed after being blown over will survive but we will be monitoring them to make sure we can keep any costs for replacement as low as possible. Once again the site supervisor David has been in constant contact with us on anything that arises on a daily basis and appreciate the updates he provides

Alternative Fee Structures

Our current **Flat-Rate** fee structure is based on anticipated staffing hours. Both options listed below provide flexibility to schedule hourly staff based on current needs and operates within the budget. In the event additional resources are needed, a request will be submitted through the District Manager prior to making any changes.

A. Cost-Plus

Vesta invoices the District based on actual wages and benefits then adds a flat rate multiplier to cover non-billable expenses and profit.

B. Hourly Billing

Fees are based on actual hours worked billed at an hourly rate.

Physical Analysis

- ❖ The site visit includes meeting with your representative to discuss any maintenance or operational concerns. We observe major components to determine quantity, age, condition and remaining useful life. Quantities are determined by field measurement and internet measurement tools or aerial measurement services.
- ❖ Building walls, trim and other features are observed from ground level. Flat roofs are observed only if safe fixed stair access is available. Pitched roofs are observed from ground level. Building Systems are not operated.
- ❖ Upon completion of the site visit, an inventory of major components is established which includes quantity, replacement cost and remaining useful life. We recommend you review this information and provide historical cost and previous replacement time for any components.

Financial Analysis

- ❖ A review of your current funding plan is completed to determine fund status and performance. We provide a funding plan using the Cash Flow Method (pooled cash) with a funding goal of adequate funding which keeps reserves above a percent funded or balance threshold level. If component funding (line item) is used, then full funding is the funding goal with the understanding we included inflation of replacement cost and interest earned on reserve funds.

Your Reserve Study Includes

- ❖ Executive summary with current funding status, fund balances and assumptions.
- ❖ Cash Flow or Component Funding Plan and 30-Year cash flow projection.
- ❖ Inventory of major components with replacement cost, useful and remaining life projections.

To Board of Supervisors
Cross Creek North Community Development District
12750 Citrus Park Lane, Suite 115
Tampa, Florida 33625

We are pleased to confirm our understanding of the services we are to provide Cross Creek North Community Development District, Clay County, Florida ("the District") for each of the fiscal years ended September 30, 2023, 2024 and 2025. We will audit the financial statements of the governmental activities and each major fund, including the related notes to the financial statements, which collectively comprise the basic financial statements of Cross Creek North Community Development District as of and for the fiscal years ended September 30, 2023, 2024 and 2025. In addition, we will examine the District's compliance with the requirements of Section 218.415 Florida Statutes. This letter serves to renew our agreement and establish the terms and fee for the 2023 audit.

Accounting principles generally accepted in the United States of America provide for certain required supplementary information (RSI), such as management's discussion and analysis (MD&A), to supplement the District's basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of our engagement, we will apply certain limited procedures to the District's RSI in accordance with auditing standards generally accepted in the United States of America. These limited procedures will consist of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We will not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The following RSI is required by generally accepted accounting principles and will be subjected to certain limited procedures, but will not be audited:

- 1) Management's Discussion and Analysis
- 2) Budgetary comparison schedule

The following other information accompanying the financial statements will not be subjected to the auditing procedures applied in our audit of the financial statements, and our auditor's report will not provide an opinion or any assurance on that information:

- 1) Compliance with FL Statute 218.39 (3) (c)

Audit Objectives

The objective of our audit is the expression of opinions as to whether your financial statements are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles and to report on the fairness of the supplementary information referred to in the second paragraph when considered in relation to the financial statements as a whole. Our audit will be conducted in accordance with auditing standards generally accepted in the United States of America and the standards for financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and will include tests of the accounting records of the District and other procedures we consider necessary to enable us to express such opinions. We will issue a written report upon completion of our audit of the District's financial statements. We cannot provide assurance that an unmodified opinion will be expressed. Circumstances may arise in which it is necessary for us to modify our opinion or add emphasis-of-matter or other-matter paragraphs. If our opinion on the financial statements is other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed an opinion, we may decline to express an opinion or issue a report, or may withdraw from this engagement.

We will also provide a report (that does not include an opinion) on internal control related to the financial statements and compliance with the provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a material effect on the financial statements as required by *Government Auditing Standards*. The report on internal control and on compliance and other matters will include a paragraph that states (1) that the purpose of the report is solely to describe the scope of testing of internal control and compliance, and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control on compliance, and (2) that the report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. The paragraph will also state that the report is not suitable for any other purpose. If during our audit we become aware that the District is subject to an audit requirement that is not encompassed in the terms of this engagement, we will communicate to management and those charged with governance that an audit in accordance with U.S. generally accepted auditing standards and the standards for financial audits contained in *Government Auditing Standards* may not satisfy the relevant legal, regulatory, or contractual requirements.

Examination Objective

The objective of our examination is the expression of an opinion as to whether the District is in compliance with Florida Statute 218.415 in accordance with Rule 10.556(10) of the Auditor General of the State of Florida. Our examination will be conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and will include tests of your records and other procedures we consider necessary to enable us to express such an opinion. We will issue a written report upon completion of our examination of the District's compliance. The report will include a statement that the report is intended solely for the information and use of management, those charged with governance, and the Florida Auditor General, and is not intended to be and should not be used by anyone other than these specified parties. We cannot provide assurance that an unmodified opinion will be expressed. Circumstances may arise in which it is necessary for us to modify our opinion or add emphasis-of-matter or other-matter paragraphs. If our opinion on the District's compliance is other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the examination or are unable to form or have not formed an opinion, we may decline to express an opinion or issue a report, or may withdraw from this engagement.

Other Services

We will assist in preparing the financial statements and related notes of the District in conformity with U.S. generally accepted accounting principles based on information provided by you. These nonaudit services do not constitute an audit under *Government Auditing Standards* and such services will not be conducted in accordance with *Government Auditing Standards*. The other services are limited to the financial statement services previously defined. We, in our sole professional judgment, reserve the right to refuse to perform any procedure or take any action that could be construed as assuming management responsibilities.

Management Responsibilities

Management is responsible for compliance with Florida Statute 218.415 and will provide us with the information required for the examination. The accuracy and completeness of such information is also management's responsibility. You agree to assume all management responsibilities relating to the financial statements and related notes and any other nonaudit services we provide. You will be required to acknowledge in the management representation letter our assistance with preparation of the financial statements and related notes and that you have reviewed and approved the financial statements and related notes prior to their issuance and have accepted responsibility for them. In addition, you will be required to make certain representations regarding compliance with Florida Statute 218.415 in the management representation letter. Further, you agree to oversee the nonaudit services by designating an individual, preferably from senior management, who possesses suitable skill, knowledge, or experience; evaluate the adequacy and results of those services; and accept responsibility for them.

Management is responsible for designing, implementing and maintaining effective internal controls, including evaluating and monitoring ongoing activities, to help ensure that appropriate goals and objectives are met; following laws and regulations; and ensuring that management and financial information is reliable and properly reported. Management is also responsible for implementing systems designed to achieve compliance with applicable laws, regulations, contracts, and grant agreements. You are also responsible for the selection and application of accounting principles, for the preparation and fair presentation of the financial statements and all accompanying information in conformity with U.S. generally accepted accounting principles, and for compliance with applicable laws and regulations and the provisions of contracts and grant agreements.

Management is also responsible for making all financial records and related information available to us and for the accuracy and completeness of that information. You are also responsible for providing us with (1) access to all information of which you are aware that is relevant to the preparation and fair presentation of the financial statements, (2) additional information that we may request for the purpose of the audit, and (3) unrestricted access to persons within the government from whom we determine it necessary to obtain audit evidence.

Your responsibilities include adjusting the financial statements to correct material misstatements and for confirming to us in the written representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud affecting the government involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud could have a material effect on the financial statements. Your responsibilities include informing us of your knowledge of any allegations of fraud or suspected fraud affecting the government received in communications from employees, former employees, grantors, regulators, or others. In addition, you are responsible for identifying and ensuring that the government complies with applicable laws, regulations, contracts, agreements, and grants and for taking timely and appropriate steps to remedy fraud and noncompliance with provisions of laws, regulations, contracts or grant agreements, or abuse that we report.

Management is responsible for establishing and maintaining a process for tracking the status of audit findings and recommendations. Management is also responsible for identifying and providing report copies of previous financial audits, attestation engagements, performance audits or other studies related to the objectives discussed in the Audit Objectives section of this letter. This responsibility includes relaying to us corrective actions taken to address significant findings and recommendations resulting from those audits, attestation engagements, performance audits, or other studies. You are also responsible for providing management's views on our current findings, conclusions, and recommendations, as well as your planned corrective actions, for the report, and for the timing and format for providing that information.

With regard to the electronic dissemination of audited financial statements, including financial statements published electronically on your website, you understand that electronic sites are a means to distribute information and, therefore, we are not required to read the information contained in these sites or to consider the consistency of other information in the electronic site with the original document.

Audit Procedures—General

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit will involve judgment about the number of transactions to be examined and the areas to be tested. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We will plan and perform the audit to obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the government or to acts by management or employees acting on behalf of the government. Because the determination of abuse is subjective, *Government Auditing Standards* do not expect auditors to provide reasonable assurance of detecting abuse.

Because of the inherent limitations of an audit, combined with the inherent limitations of internal control, and because we will not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by us, even though the audit is properly planned and performed in accordance with U.S. generally accepted auditing standards and *Government Auditing Standards*. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements. Our responsibility as auditors is limited to the period covered by our audit and does not extend to later periods for which we are not engaged as auditors.

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, and may include tests of the physical existence of inventories, and direct confirmation of receivables and certain other assets and liabilities by correspondence with selected individuals, funding sources, creditors, and financial institutions. We will request written representations from your attorneys as part of the engagement, and they may bill you for responding to this inquiry. At the conclusion of our audit, we will require certain written representations from you about your responsibilities for the financial statements; compliance with laws, regulations, contracts, and grant agreements; and other responsibilities required by generally accepted auditing standards.

Audit Procedures—Internal Control

Our audit will include obtaining an understanding of the government and its environment, including internal control, sufficient to assess the risks of material misstatement of the financial statements and to design the nature, timing, and extent of further audit procedures. Tests of controls may be performed to test the effectiveness of certain controls that we consider relevant to preventing and detecting errors and fraud that are material to the financial statements and to preventing and detecting misstatements resulting from illegal acts and other noncompliance matters that have a direct and material effect on the financial statements. Our tests, if performed, will be less in scope than would be necessary to render an opinion on internal control and, accordingly, no opinion will be expressed in our report on internal control issued pursuant to *Government Auditing Standards*.

An audit is not designed to provide assurance on internal control or to identify significant deficiencies or material weaknesses. However, during the audit, we will communicate to management and those charged with governance internal control related matters that are required to be communicated under AICPA professional standards and *Government Auditing Standards*.

Audit Procedures—Compliance

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we will perform tests of the District's compliance with the provisions of applicable laws, regulations, contracts, agreements, and grants. However, the objective of our audit will not be to provide an opinion on overall compliance and we will not express such an opinion in our report on compliance issued pursuant to *Government Auditing Standards*.

Engagement Administration, Fees, and Other

We understand that your employees will prepare all confirmations we request and will locate any documents selected by us for testing.

The audit documentation for this engagement is the property of Grau & Associates and constitutes confidential information. However, subject to applicable laws and regulations, audit documentation and appropriate individuals will be made available upon request and in a timely manner to a cognizant or oversight agency or its designee, a federal agency providing direct or indirect funding, or the U.S. Government Accountability Office for purposes of a quality review of the audit, to resolve audit findings, or to carry out oversight responsibilities. We will notify you of any such request. If requested, access to such audit documentation will be provided under the supervision of Grau & Associates personnel. Furthermore, upon request, we may provide copies of selected audit documentation to the aforementioned parties. These parties may intend, or decide, to distribute the copies or information contained therein to others, including other governmental agencies. Notwithstanding the foregoing, the parties acknowledge that various documents reviewed or produced during the conduct of the audit may be public records under Florida law. The District agrees to notify Grau & Associates of any public record request it receives that involves audit documentation.

Our fee for these services will not exceed \$6,700 for the September 30, 2023 audit, unless there is a change in activity by the District which results in additional audit work or if additional Bonds are issued. The fees for fiscal years 2024 and 2025 will not exceed \$6,800 and \$6,900, respectively, unless there is a change in activity by the District which results in additional audit work or if additional Bonds are issued.

All accounting records (including, but not limited to, trial balances, general ledger detail, vendor files, bank and trust statements, minutes, and confirmations) for the fiscal year ended September 30th must be provided to us no later than January 30th, in order for us to complete the engagement by March 31st.

We will complete the audit within prescribed statutory deadlines, with the understanding that your employees will provide information needed to perform the audit on a timely basis.

The audit documentation for this engagement will be retained for a minimum of five years after the report release date. If we are aware that a federal awarding agency or auditee is contesting an audit finding, we will contact the party(ies) contesting the audit finding for guidance prior to destroying the audit documentation.

Our invoices for these fees will be rendered each month as work progresses and are payable on presentation. Invoices will be submitted in sufficient detail to demonstrate compliance with the terms of this agreement. In accordance with our firm policies, work may be suspended if your account becomes 60 days or more overdue and may not be resumed until your account is paid in full. If we elect to terminate our services for nonpayment, our engagement will be deemed to have been completed upon written notification of termination, even if we have not completed our report. You will be obligated to compensate us for all time expended and to reimburse us for all out-of-pocket costs through the date of termination. The above fee is based on anticipated cooperation from your personnel and the assumption that unexpected circumstances will not be encountered during the audit. If significant additional time is necessary, we will discuss it with you and arrive at a new fee estimate.

This agreement may be renewed each year thereafter subject to the mutual agreement by both parties to all terms and fees. The fee for each annual renewal will be agreed upon separately.

The District has the option to terminate this agreement with or without cause by providing thirty (30) days written notice of termination to Grau & Associates. Upon any termination of this agreement, Grau & Associates shall be entitled to payment of all work and/or services rendered up until the effective termination of this agreement, subject to whatever claims or off-sets the District may have against Grau & Associates.

We will provide you with a copy of our most recent external peer review report and any letter of comment, and any subsequent peer review reports and letters of comment received during the period of the contract. Our 2023 peer review report accompanies this letter.
